## Advanced Caulking Partners with Hilti

HAFSC – Hilti Accredited Firestop Specialty Contractor. Hilti aligns with firestop specialty contractors to promote correct installation, life safety and cost effective firestopping solutions and quality products. Services and systems installations are brought together through strategic alliances. Specialty contractors must go through testing for supervisors, field inspections, trainings and destructive testings before being accredited. Hilti chooses only one specialty contractor in a specific area and Advanced Caulking has been chosen for the Cincinnati market and is currently in the process of becoming accredited. Congratulations on this outstanding achievement.

### Advanced Advice

*With the cold weather behind us & spring around the corner, March is a great time to have your building inspected. Most building materials are subject to varying degrees of shrinkage & settlement as well as normal expansion & contraction caused by changes in climate & humidity. Contact your original installer to verify the integrity of your building.*
